

Image Constructor for Custom Options for Magento Installation/Configuration Guide

Installation

1. First of all, back up your store database and web directory. It is wise to perform this procedure before any installation.
2. On your back end, go to **System** → **Magento Connect** → **Magento Connect Manager** and log in to Magento Connect Manager with administrator credentials.
3. Under “Direct package file upload” section, browse for extension archive file and hit “Upload”.

The screenshot shows the Magento Connect Manager interface. The 'Direct package file upload' section is highlighted with a red box. It contains the following steps and controls:

- 1. Download or build package file.
- 2. Upload package file. The 'Browse...' button is highlighted with a red arrow, and the 'Upload' button is also highlighted with a red arrow.

Other visible elements include the 'Settings' section with a checked box for 'Put store on the maintenance mode while installing/upgrading/backup creation' and an unchecked box for 'Create Backup' with a dropdown menu set to 'Database'. The 'Install New Extensions' section has a search field and an 'Install' button. The 'Manage Existing Extensions' section has a 'Check for Upgrades' button and a 'Commit Changes' button. At the bottom, there is a 'Channel: Magento Community Edition' label and a checkbox for 'Clear all sessions after successful install or upgrade:'.

4. Return to website back end, log out and then log in again.
5. Flush Magento Cache under **System** → **Cache Management**.
6. Congratulations! You are now ready to use **Image Constructor for Custom Options**.

Configuration/Usage

Creating product custom options

Before using Image Constructor for Custom Options, you need to make sure product custom options are actually set. You can add custom options to your product as a part of Magento default functionality:

Go to **Catalog**→**Manage Products**→<Product Name>→**Custom Options** and create custom options as you need:

The screenshot shows the 'Custom Options' configuration page for the product 'Tori Tank (Clothing)'. The left sidebar contains a navigation menu with 'Custom Options' highlighted. The main content area displays three custom options, each with a configuration row and a table of values.

Option 1: Tank Top

Title *	Price	Price Type	SKU	Sort Order
Blue	0.00	Fixed		0
Green	0.00	Fixed		0
Maroon	0.00	Fixed		0
Purple	0.00	Fixed		0
Turquoise	0.00	Fixed		0

Option 2: Belt

Title *	Price	Price Type	SKU	Sort Order
Brown	0.00	Fixed		0
Green	0.00	Fixed		0
Purple	0.00	Fixed		0

Option 3: Skirt

Title *	Price	Price Type	SKU	Sort Order
Beige	0.00	Fixed		0
Light Blue	0.00	Fixed		0
Light Green	0.00	Fixed		0
Purple	0.00	Fixed		0

Assigning Images to Custom Option Values

Once your custom options are set, you can match image with custom option value by going to **Catalog**→**Manage Products**→<Product Name>→**Image Constructor Options** as shown on the screenshot below.

(NOTE: Save all the product changes before uploading images for option values. Do not forget to save the product after all images are selected).

Choose Store View:
Default Values

Image Constructor Options

Match Custom Options with Product Images

Please make sure that the images you upload for Image Constructor Options are of the same exact size as the product image itself, otherwise they won't be correctly positioned!

Custom Options

Tank Top

Value	Image	Load File	Delete File
Blue	No image selected	<input type="button" value="Browse..."/> No file selected. Allowed file types: jpg, png, gif. Maximum image size is 3800x1800 px.
