

Magento Super Zoom Installation/Configuration Guide

Installation

1. First of all, back up your store database and web directory. It is wise to perform this procedure before any installation.
2. On your back end, go to **System** → **Magento Connect** → **Magento Connect Manager** and log in to Magento Connect Manager with administrator credentials.
3. Under “Direct package file upload” section, browse for package file and hit “Upload”.

The screenshot shows the Magento Connect Manager interface. At the top, there is a navigation bar with 'Extensions' and 'Settings' tabs, and links for 'Return to Admin' and 'Log Out'. Below the navigation bar, there are three main sections:

- Settings:** Contains two checkboxes: 'Put store on the maintenance mode while installing/upgrading/backup creation' (checked) and 'Create Backup' (unchecked). A dropdown menu is set to 'Database'.
- Install New Extensions:** Contains two numbered steps: '1 Search for modules via [Magento Connect](#).' and '2 Paste extension key to install:'. There is an 'Install' button next to the input field.
- Direct package file upload:** This section is highlighted with a red box. It contains two numbered steps: '1 Download or build package file.' and '2 Upload package file'. Below step 2, there is a 'Browse...' button with a red arrow pointing to it, followed by the text 'No file selected.', another red arrow pointing to an 'Upload' button.

At the bottom, there is a 'Manage Existing Extensions' section with a 'Check for Upgrades' button. Below that, it says 'Channel: Magento Community Edition' and a 'Commit Changes' button. At the very bottom, there is a checkbox labeled 'Clear all sessions after successful install or upgrade:'.

RIGHT SOLUTIONS FOR YOUR BUSINESS

4. Return to website back end, log out and then log in again.
5. Flush Magento Cache under **System** → **Cache Management**.
6. Congratulations! You are now ready to use **Super Zoom** extension.

Configuration/Usage

Configuring Zoom Options

You can turn Super Zoom extension on or off on the Configuration page. Go to **System** → **Configuration** → **Super Zoom** and turn it on by clicking “Zoom Options” and then “Enable SuperZoom → Yes” in drop-down menu.

The screenshot shows the Magento Admin Panel interface. The top navigation bar includes 'Dashboard', 'Sales', 'Catalog', 'Mobile', 'Customers', 'Promotions', 'Newsletter', 'CMS', 'Reports', and 'System'. The 'System' menu is expanded, showing a list of configuration options: My Account, Notifications, Tools, Web Services, Design, Import/Export, Manage Currency, Transactional Emails, Custom Variables, Permissions, Magento Connect, Cache Management, Index Management, Manage Stores, Order Statuses, and Configuration. The 'Configuration' option is highlighted with a red box. On the left sidebar, the 'Configuration' section is expanded, and 'Super Zoom' is highlighted with a red box. Below 'Super Zoom', there are several sub-options, including 'Image Switcher Options', 'Featured Slider Options', 'Wishlist Panel', 'Product Labels', 'Quick View', 'Countdown', and '"Call to Action" Promotion Tag'. The main content area shows the 'Super Zoom' configuration page with a 'Zoom Options' section and a 'Save Config' button.
