

Magento Custom Invoices Generator Installation Guide

**Custom Invoice
Generator** **ORANGE
35**

Installation

1. First of all, back up your store database and web directory. It is wise to perform this procedure before any installation.
2. On your back end, go to **System** → **Magento Connect** → **Magento Connect Manager** and log in to Magento Connect Manager with administrator credentials.
3. Under “Direct package file upload” section, browse for package file and hit “Upload”.

The screenshot shows the Magento Connect Manager interface. At the top, there is a navigation bar with 'Extensions' and 'Settings' tabs, and links for 'Return to Admin' and 'Log Out'. Below this, there is a 'Settings' section with a checkbox for 'Put store on the maintenance mode while installing/upgrading/backup creation' (checked) and a 'Create Backup' section with a dropdown menu set to 'Database'. The 'Install New Extensions' section has a search box and an 'Install' button. The 'Direct package file upload' section is highlighted with a red box and contains a 'Browse...' button and an 'Upload' button, with red arrows pointing to them. Below this, there is a 'Manage Existing Extensions' section with a 'Check for Upgrades' button and a 'Commit Changes' button. At the bottom, there is a 'Channel: Magento Community Edition' label and a checkbox for 'Clear all sessions after successful install or upgrade:'.

4. Return to website back end, log out and then log in again.
5. Flush Magento Cache under **System** → **Cache Management**.
6. Congratulations! You are now ready to use Custom Invoices Generator extension.
